**DETAILED ACTION**

***Response to Amendment***

1. Applicant's amendment filed on 7/16/09 has been entered.

In response to applicant's amendment all the prior art rejection has been withdrawn.

Claims 4-6 are new claims.

Claims 1- 6, are pending in the application.

Applicant has amended claim 1 to overcome 102(e) rejection. Therefore, the rejection under 102(e) has been withdrawn.

***Response to Arguments***

2. Applicant's arguments filed on 7/16/09 have been fully considered and are persuasive.

***Information Disclosure Statement***

3. The information disclosure statement (IDS) submitted on 7/16/09 has been considered by the examiner.

***Reasons For Allowance***

4. The following is an examiner's statement of reasons for allowance:

Claims 1- 6, are allowed.

In response to applicant's amendment persuasive arguments (see page 6, of the remarks filed on 7/16/09). The prior art of record Matsuyama et al., (US. 6,327,379 B2) discloses pattern inspection method and apparatus where the corners of a pattern 11 are round, an auxiliary pattern 12 are formed at a respective corner of the rectangular

pattern 10. See col. 1, lines 17-30. In the inspection taught by Matsuyama et al., the image of the auxiliary pattern is deleted, and the image obtained from deleting the auxiliary pattern is inspected. See col. 2, lines 18 to 33. As illustrated in Figs. 4 and 6A, the auxiliary pattern 22 is positioned only at each corner of the pattern image 21. The auxiliary pattern does not surround the image pattern 21. In addition, the auxiliary pattern 22 of Matsuyama et al., is removed to inspect the image (col. 2, lines 31-33). In other words, the auxiliary pattern 22 is an area to be excluded from the inspection. Matsuyama is not supported by "the inside area data generation means performing a reduction processing of the inside area to generate the first inspection data," and "the outside area data generation means performing an expansion processing of the outside area to generate the second inspection data." There features are not disclosed or suggested by the references, as commonly included in the independent claim 1, the prior art of record fails to teach either singularly or in combination, fails to anticipate or render the above limitations obvious. Claims 1- 6 have been withdrawn from the rejection and are allowed.

5. Any comments considered necessary by applicant must be submitted on later than the payment of the issue fee and to avoid processing delays should preferably accompany the issue fee. Such submissions should be clearly labeled, comments on statement of reasons for allowance.
